4. Afar Health

Summary	Support expanded access to improved quality and utilization of RMNCAH-N services to drive improvement in key health indicators in the Afar region; aligned to HEP Roadmap 2.0
Specific Objectives	improve primary health care (PHC) by building a resilient health system and contribute to the recovery effort including facility rehabilitation component given the damage following the northern conflict.
Geographic Focus	Selected woredas in Afar region (13 woredas in total)
Total Estimated Cost	\$10 million
Expected Release of call for Expression of Interest	o/a Nov 30, 2022
Expected Award Date	o/a March 1, 2023
Where are we now?	<p>We will put out a call for Expression of Interest to seek concept notes from the market.</p> <p>We will also share more detailed info with other donors to ensure no duplication of efforts but alignment in interventions to support greater coverage. Industry day in Semera planned in the coming weeks to share the details of the activity and get clarifications to local stakeholders.</p>
Partnership with RHB/ASK	Cocreation participation in Feb and collaboration in its implementation
